

Ahmad Ali

Email: ahmadpacer456h@gmail.com | GitHub: github.com/ahmadxcode | Location: Pakistan

Career Objective

Passionate AI & Generative AI Developer focused on solving real-world problems using Python, Deep Learning, and modern AI tools.

Skills

Python, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Streamlit, HTML, CSS, JavaScript, Data Visualization, Model Deployment (Streamlit)

Projects

Customer Churn Prediction

Built an ANN model to predict customer churn using Keras and deployed via Streamlit.

Salary Prediction

Predicted salary ranges using deep learning and deployed to Streamlit.

<https://salaryprediction-zsk3clrctwp6bhqzcs332v.streamlit.app/>

Iris Classifier

Classifies iris species using a deep learning model with a clean Streamlit UI.
